DRAWBACKS

NOTES
A time traveler from the 25th century Michael, wearing a suit of futuristic power armor, presented himself to the JLA as Goldstar. He claimed he was on an important mission, but could not disclose the details for fear of having too drastic an effect on the future as he knew it. The JLA refused to believe him, so he set out to find others who would help.

Recruiting several former allies, and even enemies, of the JLA he has formed and leads the team of Extreme Works.
